Contract and Programming.

Primus Auditing Operations Mexico issues an economic proposal based on the information provided during the application. Assignment of Registration Number

Primus Auditing Operations Mexico registers the producer in the GLOBALG.A.P. database, communicates its GGN and informs the producer on how to access the database.

Evaluation.

Prior to the audit/inspection Primus Auditing Operations Mexico will send a schedule with the timetable for the evaluation activities. On the date indicated in the planning, an Inspector/Auditor performs the evaluation according to the GLOBALG.A.P. Checklists. At the end of the evaluation, a report will be delivered to the producer informing about the compliance percentages and, if applicable, the non-compliances or non-conformities detected during the audit or inspection exercise.

Corrective Actions.

If the results of the audit/inspection were not 100% of Major Obligations and 95% of Minor Obligations, the producer performs corrective actions and submits the corresponding evidence within the timeframe indicated by the auditor/inspector. The auditor reviews the evidence and verifies if it is sufficient and adequate to close the finding.

The deadline for closure of findings in an initial certification is 28 days. If the producer does not submit corrective actions during the 28 days, an "Open Non-conformity" status is placed in the database and the deadline may be extended up to 90 days (this does not apply for a Re-certification or scope extension).

Certification Opinion.

Qualified personnel from Primus Auditing Operations Mexico performs a technical review of the documentation generated during the process in order to issue an opinion on the certification. If the producer has complied with the requirements established by GLOBALG.A.P. and after closing the findings has achieved a compliance percentage of 100% Major Obligations and 95% Minor Obligations, a Certificate of Conformity is issued, provided that all the requirements of the process have been fulfilled.
